Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Indigo Wireless uses it's website and billing message for outreach efforts with regard to hearing aid compatibility. There are also posters in the stores and all phones on display have a hearing aid rating sign. All customer service representatives are trained to advise customers on which hearing aid compatible products meet their needs and budget.

Methodology for Functionality Levels

Indigo Wireless offers handsets across different levels of functionality. Indigo Wireless defines levels of functionality according to features and characteristics of the handsets. We offer a choice of inexpensive phones that are basic or low level, medium level that have more features and priced accordingly, and high level Smart Phones that are very feature rich and they are the most expensive. We offer all levels of phones that are HAC. Indigo Wireless has been able to maintain the required ratio of HAC phone choices despite the model phase out, limited vendor choice and pricing based on our small purchase volume. The phones are rated based on extensive research of each phones specs provided by the manufacture.
